Allowable Subject Matter

1. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a router (claim 1) or plunge router (claim 10) which contains the combination of limitations in the individual independent claims, specifically wherein the router or plunge router includes a coil spring as claimed having an hourglass configuration.

The closest prior art is US Pat. No. 4,938,264 (Ferenczffy, hereafter '264) which teaches a vertically movable router with housing 10, vertical guide posts 41, 42, cutting tool 24, flexible baffle 16, coil spring 43.

'264 does not disclose the use of a coil spring having an hourglass configuration.

Therefore '264 does not anticipate the claimed inventions of independent claims 1 or 10.

US Pat. No. 2,091,842 (West, hereafter '842) and US Pat. No. 274,715 (Buckley, hereafter '715) both disclose an hourglass coil spring but does not disclose a router. Therefore neither '842 nor '715 anticipate the claimed inventions of independent claims 1 or 10.

There is no motivation found to combine the router of '264 with the hourglass coil spring as taught by either '842 or '715, and examiner finds that hindsight is required to combine the references to obtain Applicant's inventions. Furthermore, there in no prior art, either alone or in combination with '264, '842 or '715 that would render obvious the claimed inventions of independent claims 1 or 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
